

LEARN & TEACH

Professional Development Series

Each package comes with 12 seats to a JASON Academy course, 12 hands-on kits that teach the same concept in the classroom, 12 professional workbooks to give you ideas and additional support, 12 NSES Standards reference books and 12 assessment CD-ROM's that will make your evaluation after teaching a simple and consistent process.

Frey Scientific is now offering online professional development through the JASON Academy. Take your school and district to the next level in academic excellence.

This program was designed to provide educators with the tools they need to improve their knowledge and then take the next step and apply their discoveries in the classroom.

Teach the science content prescribed by national and state standards and help your students succeed on their state science examinations.

Each Kit includes NSES Manual and Assessment CD-ROM

Assessment of Student Science Literacy

Anytime, Anywhere Science Courses for Teachers

JASON Academy Courses Include:

- User-friendly science content written and illustrated in an appealing, informed style
- Interactive learning through pop-up boxes and click-on features
- Animations and graphics that illustrate course concepts
- Nationally recognized instructors
- Learning communities promoting collegial sharing
- Resources on the World Wide Web
- Student activities and demonstrations
- Opportunities for graduate credit and CEUs
- Recommendations from NSTA

Learn: This course examines the principles of assessment in the context of the National Science Education Standards. Teachers develop the competencies to improve assessments and interpretation of science literacy in their classrooms.

Teach: After completing this course you will be ready to assess your students objectively through many methods. Project-based, performance-based, test-based, concept mapping, essays and extended response, presentations and many other methods may be used. Make it a little easier with the Neo/quiz software. With this software you may design, modify, and print student tests using multiple choice, true/false, matching, labeling, concept mapping and essay questions. Illustrations or photographs may be incorporated easily with the test questions. You have the option to use the "Test Mode", which will track and grade the entire test or the "Practice Mode", which provides instant feedback. *System Requirements: Win 95 or Mac 8.5; 32MB RAM*

12 courses • 12 NSES Manuals • 12 Assessment CD-ROM's
