

LEARN & TEACH

Professional Development Series

Each package comes with 12 seats to a JASON Academy course, 12 hands-on kits that teach the same concept in the classroom, 12 professional workbooks to give you ideas and additional support, 12 NSES Standards reference books and 12 assessment CD-ROM's that will make your evaluation after teaching a simple and consistent process.

Frey Scientific is now offering online professional development through the JASON Academy. Take your school and district to the next level in academic excellence.

This program was designed to provide educators with the tools they need to improve their knowledge and then take the next step and apply their discoveries in the classroom.

Teach the science content prescribed by national and state standards and help your students succeed on their state science examinations.

Each Kit includes
NSES Manual and
Assessment CD-ROM

Rainforests—Endangered Ecosystems

Learn: This course explores the nature of rainforests and their role in the biosphere. It investigates the rainforest flora, fauna, abiotic factors, and human populations and how they interact with one another.

Teach: Introduce ecological concepts to your students with the Power of Science Ecology Kit. Students will be guided through more than 35 activities investigating how air, water, soil, plants, food chains, and habitats work together. Next, you can show how these same interactions apply to the Rainforests through specific examples you've attained through the course.

12 courses • 12 NSES Manuals • 12 Assessment CD-ROM's • 12 Classroom Kits (Power of Science Ecology) • 12 Exploring the Rainforest Books
